

# ICE AGE

Term Project: Level 1 Term 1

Project Name: Ice Age

Project supervisor: [Shadman Saqib Eusuf](#)

Project By

Shahriar Ferdoush Sifat (S201805101)

&

Sultanul Arifin (S201805097)

In this project, the leading character of Ice Age movie Manny is the character which runs to escape the flood due to meltdown period.

On its way it has to face some obstacles. Basically they are of two kinds:

1. Large Obstacles: Ice blocks.
2. Small Obstacles: 3 kinds of trees are used of different height and width are used.

Four kinds of bonuses are added in the game:

1. Life increment: Increases number of life by one.
2. Power Jump: Gives the capability to jump higher than a regular one.
3. Shield: Protects from small objects. If the shield is on and it collides with a small obstacle the obstacle will be broken. But if it collides with the large obstacles the shield will be broken and Manny loses a life.
4. Coin: Gives 50 points.

Some screenshots of the game is added here to give you a brief idea:
